461. Hamming Distance

```c
int hammingDistance(int x, int y) {
    int xorResult = x ^ y;
    int distance = 0;

    while (xorResult > 0) {
        distance += xorResult & 1;
        xorResult >>= 1;
    }

    return distance;
}
```

477. Total Hamming Distance

```c
int totalHammingDistance(int* nums, int numsSize) {
    int totalDistance = 0;

    for (int i = 0; i < 30; i++) {
        int countOnes = 0;
        for (int j = 0; j < numsSize; j++) {
            countOnes += (nums[j] >> i) & 1;
        }
        totalDistance += countOnes * (numsSize - countOnes);
    }

    return totalDistance;
}
```
